

How do I link a student card?

Student cards may only be linked to one Flexischools account at a time.

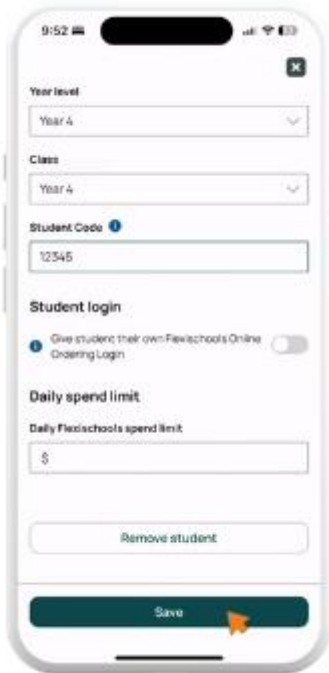

Step 1. Select Profile from the navigation bar.

Step 2. Select your student.

Step 3. Scroll down, enter your student card number in the 'Student Code' field, and click save!

The screenshot shows a mobile application interface for managing student information. At the top, the status bar displays the time 9:52, signal strength, Wi-Fi, and battery icons. The app interface includes a close button (X) in the top right corner. Below this, there are two dropdown menus: 'Year level' and 'Class', both currently set to 'Year 4'. A text input field labeled 'Student Code' contains the number '12345'. Underneath, there is a section titled 'Student login' with a toggle switch for 'Give student their own Flexschools Online Ordering Login', which is currently turned off. Below that is a 'Daily spend limit' section with a text input field labeled 'Daily Flexschools spend limit' containing a dollar sign '\$'. At the bottom of the form is a 'Remove student' button. A dark green 'Save' button is located at the very bottom of the screen, with an orange arrow pointing to it.

If you're not sure what your child's student card number is, please contact the school.
